WORK EXPERIENCE

GUNDO HEALTH AND FOOD S.L.

Full-Stack Engineer

Technologies: React, Next.js, TypeScript, NestJS, Node.js, Google Cloud (Cloud Build, Firestore, BigQuery), Vertex AI, OpenAI, Mastra Framework

- Developed and enhanced large-scale fitness platforms, integrating AI architecture with multi-agent systems.
- Implemented advanced solutions such as:
 - Dish scanner: ingredient recognition and macronutrient calculation using AI.
 - Intelligent training and nutrition plans: personalized routines, recommendations, and metrics tracking.
 - Dynamic wellness and nutrition questionnaires with advanced analytics.
- Designed APIs and microservices for integrating GUNDO services with global clients.
- Built web and mobile applications with React and React Native, optimizing user experience and payment gateways (Stripe, MercadoPago).
- Managed the full software life cycle: planning, Google Cloud deployment, CI/CD, and maintenance.

Gelvez Distribuciones S.A.S.

Full-Stack Developer

Nov 2023 – Jul 2024 | Cúcuta, Colombia (On-site)

Technologies: Python, Django, Selenium, Playwright, Flask, JavaScript, React.js, HTML, CSS, PostgreSQL, MySQL

- Developed an automated report-sending system to suppliers and partners using Python and Selenium, streamlining communications.
 - Implemented a script for mass validation of business partners, identifying inconsistencies in names and backgrounds via Procuraduría and Dian queries.
 - Led the development of a corporate intranet for administrative management, significantly reducing operational costs by minimizing SAP dependency.
 - Built a software-update management dashboard, improving version visibility and control with Vite and React.js.
 - Created a REST API for investment request management, integrating Firebase services for efficient and secure data handling.
-

EDUCATION

Systems Engineering

UNAD, Colombia

Jan 2025 – Present

Technologist in Software Analysis and Development

SENA, Colombia

Apr 2022 – Jul 2024

Python Essentials 2

CISCO Networking Academy, Remote

Dec 2022 – Mar 2023

Introduction to Data Science

CISCO Networking Academy, Remote

Nov 2022 – Dec 2022

Python Essentials 1

CISCO Networking Academy, Remote

Oct 2022 – Dec 2022

SKILLS

Languages

- **Spanish:** Native
- **English:** Basic

Technical

- **Languages:** TypeScript, JavaScript, Python, SQL, HTML, CSS
- **Frameworks & Libraries:** React.js, Next.js, NestJS, Node.js, Express.js, FastAPI, Django, Flask, React Native, Three.js, Tailwind CSS
- **Cloud & Data:** Google Cloud (Cloud Build, Firestore, BigQuery), Firebase, Docker, Git
- **AI & Multi-Agent:** Vertex AI, OpenAI, Mastra Framework
- **Testing & Automation:** Selenium, Playwright

Soft Skills

- Problem Solving
 - Teamwork
 - Adaptability
 - Leadership
 - Effective Communication
-

PROYECTOS PERSONALES

DineFlow API – Comprehensive Restaurant Management

GitHub: [dineflow-API](#)

- Backend API built with Express.js to manage orders and interactions among customers, waiters, and chefs.
- Includes user authentication, order management, and real-time communication between staff members.
- Integrated Firebase for push notifications and real-time database, ensuring efficient synchronization with the mobile apps for customers, waiters, and cooks.

DineFlow Menu – Web Client for Customers

GitHub: [dineflow-MENU](#)

- Menu frontend that consumes the DineFlow API to display available products, accessible via a QR code in the restaurant.

HandleMinder – Financial Management Web App

GitHub: [HandleMinder](#)

- Web platform built with React.js, Vite.js, and Tailwind CSS to manage personal income and expenses.
- Implemented an expense/income categorization system based on positive or negative nature for detailed financial control.
- Added visual customization through hex color selection to enhance user experience.
- Secure user authentication with JWT to protect sensitive data.

HandleCost – Financial Management REST API

GitHub: [HandleCost-API](#)

- API built with Python and FastAPI providing financial management services for HandleMinder.
- Implemented robust JWT authentication to secure all transactions and requests.
- Real-time financial statistics and analysis to help users make informed decisions.

Portafolio Web – Personal Projects Showcase

GitHub: [Portfolio3D](#)

- Interactive personal portfolio developed with React.js and Three.js, highlighting key projects and technical skills.
 - Integrated 3D models for a unique and professional visual experience.
 - Implemented dynamic navigation with React Router and visual effects using Motion and Tailwind CSS.
