PROFESSIONAL SUMMARY

Full-Stack Engineer with nearly two years leading the development of large-scale health and fitness platforms at GUNDO (Spain). Technical lead of the Fitness area of an AI-powered B2B2C white-label platform, deployed as a branded product for major Spanish retail and fitness enterprises (Uvesco, Ametller Origen, DIA, CrossFit). End-to-end product experience - React, Next.js, NestJS and Node.js on Google Cloud and AWS - with a specialization in AI architectures and multi-agent systems. Focused on scalability, security and product quality in production.

CORE COMPETENCIES

TypeScript · JavaScript · Python · Go · React · Next.js · React Native · NestJS · Node.js · Express.js · FastAPI · REST APIs · Microservices · AI & Multi-Agent Systems (Vertex AI, OpenAI, Mastra) · RAG · Google Cloud · AWS · PostgreSQL · Docker · CI/CD

EXPERIENCE

GUNDO Health and Food S.L. Aug 2024 - Present
Spain (Remote)

Product Owner & Full-Stack Engineer (Nov 2025 - Present) | Full-Stack Engineer / Tech Fitness Lead (Aug 2024 - Nov 2025)

- Technical lead of the Fitness area of an AI-powered B2B2C white-label health and nutrition platform, deployed as a branded product for major Spanish enterprises (Uvesco, Ametller Origen, DIA, CrossFit).
- Engineered GENIE, a personalized-nutrition solution based on genetic, microbiome and biochemical data, winner of the EU DRG4FOOD programme (300,000 EUR grant) in consortium with ADN Institut (Spain) and i3S (Portugal).
- Designed and implemented the AI-driven training and nutrition plan generation engine with a multi-agent architecture (Mastra, Vertex AI, OpenAI) and asynchronous event-driven processing on Google Cloud Pub/Sub.
- Built an AI dish scanner using computer vision: ingredient recognition and automatic macronutrient calculation from images, with personalized nutritional recommendations.
- Evolved the fitness engine into a multi-tenant architecture and strengthened API security (CORS policies, authentication/authorization with JWT and App Check, prevention of cross-user access).
- Built web and mobile applications (React, Next.js, React Native) with payment-gateway integration (Stripe, MercadoPago).
- Defined the technical and product roadmap and owned releases and continuous deployment (CI/CD) on Google Cloud and AWS.

Gelvez Distribuciones S.A.S. Nov 2023 - Jul 2024
Cucuta, Colombia (On-site)

Full-Stack Developer - IT Assistant (internship contract)

- Automated report delivery to suppliers and business partners with Python and Selenium/Playwright.
- Built a mass business-partner validation system querying DIAN and Procuraduria databases (DIAN Annex 1.9 compliance).
- Developed an enterprise intranet (Python/Django) that reduced SAP dependency and operating costs.
- Designed a REST API for investment-request management (Flask) with Firebase integration; built a software monitoring dashboard (Vite + React).

PROJECTS

Shelvora - Every story, on your shelf (shelvora.rickdev.tech) - Offline-first Android web-novel reader (React Native, New Architecture + Hermes, TypeScript, Expo). Content-addressed storage, hybrid translation (online + on-device ML Kit) with proper-noun glossary, multi-source engine (7 sites), online/offline reader with prefetch, EN/ES i18n (~1,000 keys) and a remote integrity gate. Native Gradle build (standalone APK). Built with an AI-orchestrated plan-first workflow.

DineFlow (github.com/Ricardoarsv/dineflow-API) - End-to-end restaurant management: Express.js/Node backend with real-time Firebase and a QR-based menu front-end (React/Vite).

HandleMinder + HandleCost API - Personal finance management with React/Vite/Tailwind and FastAPI/JWT, with real-time statistics.

NutriChatAI - AI-based nutrition chatbot (LLM integration), aligned with the GUNDO domain.

E-commerce REST API - E-commerce REST API built in Go.

EDUCATION

B.Sc. in Systems Engineering - UNAD (Universidad Nacional Abierta y a Distancia), Colombia	Jan 2025 - Dec 2027
Technologist in Software Analysis and Development - SENA, Colombia	Apr 2022 - Jul 2024

CERTIFICATIONS

JavaScript Essentials 1 - Cisco Networking Academy (2024) · Python Essentials 2 - Cisco (2023) · Python Essentials 1 - Cisco (2022) · Introduction to Data Science - Cisco (2022)

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, Go, HTML, CSS

Frontend: React, Next.js, React Native (New Architecture, Hermes), Expo, Tailwind CSS, Three.js, Vite

Mobile: React Native, Expo, Android (Gradle, native builds), ML Kit (on-device translation), offline-first

Backend: NestJS, Node.js, Express.js, FastAPI, Django, Flask, REST APIs, microservices

Cloud & DevOps: Google Cloud (Cloud Build, Firestore, BigQuery, Pub/Sub), AWS (CDK, Fargate, ECR, S3), Firebase, Docker, CI/CD, Git, SonarQube

AI & Multi-Agent: Vertex AI, OpenAI, Gemini, Mastra Framework, multi-agent systems, Bedrock, ML Kit (on-device AI), AI-orchestrated (agentic) development

Databases: PostgreSQL, MySQL, Firestore, BigQuery

Testing & Automation: Selenium, Playwright
